ACCEL

**FULL POWER -
 HALF THE WEIGHT!**

LIGHTNING CABLE!

ACCEL Lightning Cable allows your racecar to have the same amount of energy and power running thru your battery cables at half of the weight. The 4, 2, and 1/0 gauge cable is half the weight of traditional battery cable. This allows you to lighten up your car or add weight were it will help the car handle better. The cable is available in 20 and 100 foot spools to re-wire one or several racecars.

**ACCEL
 Lightning
 Cable**

Traditional Copper

Part # Description

1842	3ft, 4 gauge black grounding cable
1843	3ft, 2 gauge black grounding cable
1844	100ft spool, 2 gauge red
1845	100ft spool, 4 gauge red
1846	20ft spool, 1/0 gauge red
1847	20ft spool, 1/0 gauge black
1848	20ft spool, 2 gauge red
1849	20ft spool, 2 gauge black
1850	20ft spool, 4 gauge red
1851	20ft spool, 4 gauge black
1852	4 pack 1/0 gauge terminals and eyelets
1853	4 pack 2 gauge terminals and eyelets
1854	4 pack 4 gauge terminals and eyelets
1855	16 pack 1/0 gauge terminals and eyelets
1856	16 pack 2 gauge terminals and eyelets
1857	16 pack 4 gauge terminals and eyelets
1858	4 pack red shrink sleeve
1859	4 pack black shrink sleeve

- The ACCEL Lightning Cable is half the weight of standard battery cable
- ACCEL Lightning Cable is .12 lbs. per cubic foot
- Industry leading Copper Clad Aluminum which allows maximum energy transfer
- Easy to use compression fittings and terminals simply twist and screw on available in 4 and 16 packs
- Red and black heat shrink tubing kits available
- ACCEL Lightning Cable is available in 1/0, 2, and 4 gauge
- Pre made 3 foot long grounding cables available in 4 and 2 gauge
