

SPORT COMPACT COILS

LATE MODEL SPORT COMPACT SUPERCOILS

These coils feature advanced bobbin technology, highly specialized silicone magnetic steel cores, along with optimized winding, resistance and turns ratios to deliver 10-15% more energy than the OEM coils. Specialized high temperature epoxy resists shock and vibration, while increasing thermal conductivity. These are direct plug replacement for OEM coils. They feature bodies and/or secondary towers molded in ACCEL yellow and feature brass secondary contacts (except direct fire coil on plug applications).

1995-97 Chrysler/Dodge/Plymouth/Mitsubishi
4 cylinder DIS (round pin contacts)I40026

1998-03 Chrysler/Dodge/Plymouth/Jeep/Mitsubishi
4 cylinder DISI40027

1992-00 Honda/Acura 4 cylinder with internal coilI1076
